Training Alternatives for Therapeutic Excellence

Hello there, Kenneth Young administrators my name is Melvyn Tate and I am a dedicated and compassionate trainer. I have worked in the field of mental health for over forty years. I began working as a front line staff in a residential treatment facility and have utilized my experiences on the ground floor to teach, supervise, and support mental health counselors and clinicians. My passions are teaching, seeing others grow to their fullest potential, and helping children who have survived difficult life experiences. I am committed to changing systems and advocating for, collaborative, relational, and ethical practices in residential care settings. I have an interest in building positive communities and helping others overcome life's obstacles. I have led trainings on a variety of topics including: Trauma Informed Care, Collaborative Problem Solving, Therapeutic Crisis Intervention, and working with LGBTQ populations. In my free time I enjoy exploring the city of Chicago, eating at new restaurants, meeting new people, and watching various sports my favorite being track and field.
